

# Counties list their top PARCC exam results

South Jersey Times

Here are the top schools and districts in grades 3 through 11 for math and language arts categories in Cumberland County for the PARCC (Partnership for Assessment of Readiness for College and Careers) exams.

The PARCC test results placed students in five categories. These rankings reflect the schools or districts in each category that had the highest percent of students in Level 5, defined as "Exceeding Expectations."

Language Arts scores run straight through grades 3-11. Math runs through grades 3-7 and then largely shifts to subject areas.

## CUMBERLAND COUNTY MATH
